

Plan Médico Ryder Directo

FORMULARIO DE MEDICAMENTOS CUBIERTOS POR CLASIFICACIÓN TERAPÉUTICA

El Plan Médico Ryder Metales le presenta la lista de Medicamentos que su cubierta de farmacia utilizará para ofrecerle una amplia selección de opciones de tratamiento costo-efectivas.

Su cubierta de farmacia utiliza una Lista de Medicamentos para ayudar a reducir el continuo aumento en los costos de los medicamentos y a la vez ofrecerle una amplia selección de opciones de tratamiento costo-efectivas. Se ofrece también como una alternativa para continuar ofreciendo a nuestros asegurados planes de farmacia más accesibles.

La Lista de Medicamentos es una guía de los medicamentos seleccionados por el Comité de Farmacia y Terapéutica del Plan o de su manejador del beneficio de farmacia ("PBM", por sus siglas en Inglés), la cual representa los medicamentos necesarios para un tratamiento de alta calidad. El Comité de Farmacia y Terapéutica está compuesto por médicos, farmacéuticos clínicos y otros profesionales de la salud, quienes se reúnen periódicamente para evaluar y seleccionar aquellos medicamentos que serán Incluidos en esta Lista de Medicamentos. Esta selección se hace a base de la seguridad, efectividad y costo de los medicamentos. De ahí la importancia de que su médico y usted seleccionen los medicamentos en la Lista.

En las páginas a continuación presentamos la Lista de Medicamentos, con toda la Información requerida para facilitarle su lectura e Interpretación.

Le exhortamos a que evalúe con su médico los medicamentos disponibles en nuestra Lista para tratar su condición. Nuestra Lista contiene un sinnúmero de medicamentos por condición, los cuales Incluyen medicamentos genéricos y de marca preferidos, entre otros. Al utilizarla, usted contribuye a mantener los costos del beneficio de farmacia en un nivel razonable, además que sus copagos serán menores.

INTRODUCCIÓN

Esta es una lista abreviada de medicamentos que contiene los **medicamentos cubiertos** por su clasificación terapéutica.

¿Cómo usar la Lista de Medicamentos?

La manera más fácil en que usted puede conseguir los medicamentos en la Lista de Medicamentos es buscando el medicamento en el Índice al final de la lista. El Índice provee una lista por orden alfabético de todos los medicamentos Incluidos en este documento. Busque el Índice y encuentre el medicamento. Al lado del medicamento, usted encontrará el número de la página donde encontrará cómo está cubierto.

¿Cuánto usted paga por los medicamentos cubiertos?

Los medicamentos en la lista de medicamentos se clasifican por niveles. Estos niveles identifican los diferentes niveles de costo compartido, o sea, lo que usted paga por los medicamentos en la receta. Estos niveles son los siguientes:

- Nivel1: GENÉRICO - Medicamento genérico preferido
- Nivel2: GENÉRICO NO PREFERIDO – Medicamento genérico no preferido
- Nivel3: PREFERIDO - Medicamento de marca preferido
- Nivel4: NO PREFERIDO - Medicamento de marca no preferido
- Nivel5: ESPECIALIZADO PREFERIDO - Medicamento especializado preferido
- Nivel6: ESPECIALIZADO NO PREFERIDO - Medicamento especializado no preferido
- Nivel0: PREVENTIVO - Medicamento preventivo

¿Qué son medicamentos Preventivos?

Medicamentos preventivos son los medicamentos recetados que pueden ayudar a evitar el desarrollo de una condición de salud. Ellos pueden ayudarle a mantener su calidad de vida y evitar tratamiento a largo plazo. Su plan Incluye medicamentos preventivos que lo pueden ayudar a mantenerse saludable.

¿Qué son medicamentos Genéricos?

Un medicamento genérico tiene el mismo Ingrediente activo en la fórmula que un medicamento de marca. Los medicamentos genéricos usualmente cuestan menos que un medicamento de marca y están aprobados por la Administración Federal de Drogas y Alimentos (FDA, por sus siglas en inglés).

Recomendamos que utilice los medicamentos genéricos. Estos son iguales en potencia y dosis y también son aprobados por la FDA.

¿Qué son medicamentos Preferidos?

Hay ciertos medicamentos de marca que han sido seleccionados por el Comité de Farmacia y Terapéutica como agentes preferidos luego de su evaluación de seguridad, eficacia y costo. En aquellas clases terapéuticas donde no hay genéricos disponibles, les exhortamos a que utilice

como primera alternativa aquellos medicamentos identificados como preferidos.

¿Qué son medicamentos No Preferidos?

Un medicamento es clasificado como No Preferido porque existen alternativas en los niveles anteriores con menos efectos secundarios o son más costo-efectivos. Si el asegurado obtiene un medicamento de marca no preferido, tendrá que pagar un costo mayor por el medicamento.

¿Qué son medicamentos Especializados o Biotecnológicos?

Algunos medicamentos para condiciones crónicas y de alto riesgo requieren una administración y/o un manejo especial, por su composición compleja. Estos medicamentos se ofrecen a través de las farmacias de la red o del Programa de Medicamentos para Condiciones Especiales, el cual cuenta con una red de farmacias especializadas dedicadas a que estos medicamentos sean despachados y administrados correctamente.

GUÍAS DE REFERENCIA

Medicamentos que requieren pre Autorización ^{PA}

Ciertos medicamentos necesitan una pre Autorización para ser adquiridos por el paciente. Los mismos se han identificado a la derecha con **PA (requiere pre Autorización)**, en cuyo caso, la farmacia gestiona la pre Autorización con nuestro centro de llamadas.

Los medicamentos que requieren pre Autorización usualmente son aquellos que presentan efectos adversos, son candidatos al uso Inapropiado o están relacionados con un costo elevado.

Aquellos medicamentos que han sido identificados que requieren pre Autorización deben satisfacer los criterios clínicos establecidos según lo haya determinado el Comité de Farmacia y Terapéutica. Estos criterios clínicos se han desarrollado de acuerdo a la literatura médica actual.

Límites de Cantidad ^{QL}

Ciertos medicamentos tienen un límite en la cantidad a despacharse. Estas cantidades se establecen de acuerdo a lo sugerido por el fabricante como la cantidad máxima adecuada que no está asociada a efectos adversos y la cual es efectiva para el tratamiento de una condición.

Terapia Escalonada ST

Ciertos medicamentos requieren que usted utilice primero un medicamento como terapia para su condición antes de que cubramos otro medicamento para esa condición (Terapia Escalonada). Por ejemplo, si el Medicamento A y el Medicamento B se usan ambos para tratar su condición médica, nosotros requerimos que usted utilice primero el Medicamento A. Si el Medicamento A no funciona para usted, entonces cubriremos el Medicamento B.
